PERMISSION TO CONDUCT RESEARCH

STUDENT'S NAME: Abdulrahman Belhaj

INSTITUTE: Higher Institute of Science and Technology

DEPARTMENT: Physiotherapy

PHONE: _____

Dear Dr. _____,
Head of the Physiotherapy Department / Clinic Director

I am writing to request permission to conduct the practical part of my graduation research project in Physiotherapy, entitled “The Effect of Therapeutic Exercises on Knee Joint Pain in Patients with Knee Osteoarthritis,” at your department.

I aim to include patients diagnosed with knee osteoarthritis who attend your department, over a period of six weeks. Each participant will follow a supervised therapeutic exercise program, and knee pain and function will be assessed before and after the program using standard measures (the Visual Analogue Scale (VAS) and the WOMAC index). All exercises are safe, routinely used in physiotherapy practice, and will not interfere with the patients’ regular treatment.

Participation will be entirely voluntary, and written informed consent will be obtained from every patient. All collected data will be used solely for academic purposes and will be accessible only to my supervisor and me.

Data will be securely stored and deleted upon the completion of my work, ensuring the confidentiality of the patients’ identities and of your department.

I kindly seek your approval for this study, which will greatly contribute to my academic growth and to the evidence supporting physiotherapy care for patients with knee osteoarthritis.

If you agree, please sign below.
